P.T.A. BRIDGE DRIVE TOMORROW NIGHT

One of the worthiest activities carried on in our town is the supplying of hot lunches by the P.T.A. In order to raise funds for this the P.T.A. are having a bridge drive Friday night in Horning's Hotel, so that the good cause by attending.

Arrowwood Curling Club Bonspiel January 11

The Fifth Annual Bonspiel of the Arrowwood Curling Club which opens on Wednesday, January 11th, promises to be bigger and better than ever. Many entries are expected from outside points. There will be two major events and a consolation. The entry fees this year are 25c per club member, non-members 1c each and visiting rinks from other clubs free. All entries and fees should be in the hands of Jack Beagle, secretary of the club not later than Jan. 10th.

The P.T.A. will have a stand and serve hot dogs and hot drinks.

Curlers and non-curlers have always taken a very keen interest in bonspiels and are anxious to make outside rinks welcome. They have shown that spirit of good sportsmanship that this ancient game is noted for.

December Standings for Grades 7 and 8

Grade VII	
1	Annie Dumka and Lorna Richards, equal.
3	Loretta Weina
4	Thomas Anderson
5	Geniva Culp
6	Doris Miller
7	Lloyd Irwin
8	Betty Jean Vancil
9	Earl Satter
10	John Oliver
11	Raymond Moss
12	Allen Cochran
13	Jacob Royer
14	Douglas Oliver
Grade VIII	
1	Larry Terioch
2	Hurley Williams and Betty Kelly
4	Hazel Taylor
5	Clara Service
6	June Clifgard
7	Mildred Irwin
8	Rosella Royer
9	Shirley Ward
10	Jack Williams
11	Bessie Miller
12	Stuart Beagle
13	Leonard Williams
14	Leroy Richards
15	Norman Jones
16	Hermen Leith
Enrollment	
Teacher—H. McCullough	

Midnight Frolic

The first frolic of its kind held in the Mossleigh hall was a decided success Monday last. A large crowd of young people assembled about 12:10 Sunday night and the New Year was ushered in with a morning of enjoyable dancing. Music was supplied by the Carveland orchestra and the crowd was kept in lively motion at all times. Lunch was served at the Mossleigh Cafe at 3 a.m. after which dancing continued until 6 a.m.

Miss Margaret Rubelka who has been visiting at the home of Mr. and Mrs. C. G. Taylor returned to her home in Queenstown Wednesday.

Shouldice Waves

Drive On—1933

Though mists of gray besod the day—
Though stones are scattered long the way—
Drive On—
Forget the past—the past is dead—
The sun is shining far ahead—
Drive On—

Make room within thy soul for song—

Blight not the faith that makes thee strong—
Drive On.
A taller wave than you have known—
Some day, some way, shall be your own—
Drive On.

Mr. W. H. Muwat, who spent the holidays with his parents at Parkland, returned Monday to resume his duties as teacher in the Shouldice School.

Mr. P. Norton, whose farm is west of Shouldice, finished threshing his 1932 crop on Dec. 31st.

Gleichen Lodge A.F. & A.M. Install Officers

On St. John's Night, Dec. 27, the officers of the local blue lodge A. F. & A. M. were installed. There was a splendid turnout of members and visitors. Wor. Bro. A. R. Yates installed the officers and Wor. Bro. T. H. Beach presided as Toastmaster. It proved a most enjoyable evening and judging from the list of officers the fraternity is launched for another successful year.

W. Bro. R. H. Bishop—W. M. P. Bro. R. A. Brown—S. W. Bro. W. Somerville—J. W. R. Bro. A. R. Yates—Treas. Bro. A. A. J. Lewis—Secretary. Bro. Rev. J. W. House, Chaplain.

Provincial Seed Fair

Some of the finest seed grain in the world will be on exhibition in Edmonton during the week of the annual provincial seed fair, January 10-13 inclusive. During the same week the annual meeting of the Alberta Seed Growers' Association will be held, together with the annual agricultural short course at the university.

As was the case last year, prize winners in wheat and oats at Toronto and Chicago will not be allowed to come into competition with other exhibitors in these classes, but will be placed in a class by themselves, a so-called "professional" class. Special premiums are offered in both wheat and oats for this class by the provincial department of agriculture.

Grand champion ribbons will be awarded the best samples of wheat and oats at the fair, all exhibitors in these grains being eligible.

HOCKEY

Langdon 2-Arrowwood 0

The first hockey game of the season was played Wednesday night on Arrowwood ice with the Langdon Club as opponents. Although strengthened by the Mossleigh Club the local team were unable to score on the invincible Langdon goalie. Both teams were evenly matched but the visitors showed more skill with the forward pass as allowed by this year's rules.

The first period was scoreless while in the second period Hansen, the local goalie, had a little hard luck when he scored for Langdon. The second goal came early in the third period. Smith, of the locals, was given a good hand on several solo rushes.

Arrowwood—Goal, Hansen. Defense—Smith, McLeod, Forward—F. Mason, Beagle, McCullough, J. Leslie, R. Leslie, H. Leslie, E. Mason, F. McColman, D. McColman.

Local and Personal

A dance will be held in the Milo Hall on January 8th. Gent's 25c, Ladies free.

Mr. and Mrs. C. G. Taylor entertained at two tables of bridge last Saturday evening.

Miss Ellen Christensen returned on Tuesday evening from a visit to Calgary.

The P.T.A. will hold a bridge drive in Horning's Hotel on Friday, January 6th, in order to raise funds for hot lunches at the school.

Mr. Malcolm Taylor returned

to Banff Monday last where he will resume his studies.

Miss Ruth and Edna Beagle spent New Years in Calgary.

The next meeting of the Guild will be held at the home of Mrs. G. Jones on Jan. 12.

Master Larry Mackie is spending the week with his grandparents, Mr. and Mrs. J. Mackie and Mr. and Mrs. D. J. Beagle.

Miss Irene Hasketh returned on Tuesday from Calgary, where she spent her holidays with relatives.

Miss Leona Spencer returned from Kamloops where she spent the Christmas vacation with relatives.

New Year's Day was fittingly celebrated at the home of Mrs. E. D. Archambault when over thirty relatives gathered to enjoy a turkey dinner.

The annual school meeting of the Arrowwood Consolidated School District will be held in the school at 2 p.m. on January 7th. All those interested in school affairs are requested to be present.

Jack Stabback returned to his home in Calgary on Tuesday after spending the Xmas holidays at the home of Mr. and Mrs. H. E. Brown.

On Tuesday Mrs. T. S. Board received the sad news of the death of her only sister which took place at Bristol, England, recently.

Besides getting a good feed of turkey for 40c at the Curleys Turkey Supper on January 12, you will have the chance of winning one of the two prizes put up by the Club, for the two holders of the lucky tickets.

The supper will be served from 6 to 8 o'clock in the basement of the Church of the Brethren.

Miss M. Newton of Retlaw Retlaw is visiting with her sister, Mrs. R. Dahl.

Miss Irene Kelly returned to her school duties at Calgary on Monday.

Mr. and Mrs. C. C. Gump and daughter of Airline were Sunday visitors at the home of Mrs. L. H. Irwin.

Just a reminder that Mac's Truck is still on the go. We haul Freight, express and livestock. Special rates on full loads.

We are pleased to report that Mrs. N. Nissen, who underwent an operation recently in the Calgary General Hospital is progressing nicely and expects to be home this week-end.

Skating Schedule

Monday	
7-10	General Skating
Tuesday	
3:30-5	Children 12 years and under
6:30-7:30	Senior Hockey practice
7:30-10	General Skating
Wednesday	
3:30-5	Junior Hockey practice
6:30-7:30	Girls Hockey practice
7:30-9	General Skating
9-10	Senior Hockey practice
Thursday	
3:30-5	Skating 12 years and under
6:30-7:30	Senior Hockey practice
7:30-10	General Skating
Friday	
6:30-9:30	General Skating
9:30-10:30	Senior Hockey practice
Saturday	
10:30-11:30	Jr. Hockey practice
2-5	General Skating
7-10	General Skating
Sunday	
2-5	General Skating (Season ticket holders only)
Children 12 years and under are kindly requested to leave the rink at 4 p.m.	
All skaters are requested to co-operate in closing the rink at the proper time thus curtailing extra expense in light, heat, etc.	
For information and tickets see Mr. N. Lord.	

W. I. Meets at Home of Mrs. C. Johnston

The Arrowwood Women's Institute met at the home of Mrs. C. E. Johnston, Tuesday, Jan. 3rd. Nine members and two visitors were present. The new President, Mrs. C. G. Taylor, presided.

The ladies decided to make a quilt to enter in the Handicraft Exhibition, which will be a feature of the annual convention to be held in Calgary in the spring.

A committee of three—Mrs. Hurch, Mrs. Leith and Mrs. Service will be in charge of the making of this quilt.

Votes of thanks were tendered the retiring President, Mrs. McColman, and Secretary, Mrs. Leith.

After a great deal of discussion regarding the need of a community hall the meeting was brought to a close by a "Made in Canada" contest, arranged by Mrs. Johnston.

Mrs. F. H. Bell assisted Mrs. Johnston in serving the lunch.

Turkey Supper January 12th

The Arrowwood Curling Club are ever on the lookout to better serve those who attend their annual turkey supper. This year they have secured the basement of the Church of the Brethren. Each year they have to look for larger quarters to care for the increasing attendance. Remember the date January 12th, from 6 to 8 p.m. Adults can have all they want to eat for 40c each, children under 15 years, 20c. There will be two lucky tickets and the holders will each receive a prize.

Community Concert a Credit to Trainer

Those who turned out to the community concert put on by Mrs. J. V. Henderson in the school last Friday evening enjoyed a miscellaneous program which was credit to trainer and performers. Mrs. Henderson opened the concert with a few remarks in which she thanked those present and regretted that owing to circumstances it had been necessary to postpone the concert from Dec. 23rd to Dec. 30. Clara Service occupied the chair very capably. Following is the program:

Her Heart Was Weak

Nerve Shock, Night Restless

**MILBURN'S
HEART
NERVE PILLS**

Mrs. A. Black, Wallaceton, Ont., writes:—
"I suffered from heart weakness, shaky nerves, and nervous night."
"I saw an advertisement for Milburn's Heart and Nerve Pills and decided to try them although I was a little doubtful, but now I am very thankful I did as they have proved of wonderful help to me."
"I am now strong and well again, but am never without a box in the house."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Paying The War Debt

Great Britain's war debt to the United States was the subject of a recent article in this column in which it was pointed out that that debt was contracted by Britain, not to finance its own war expenditures, but in order to enable it to bolster up its Allies who had reached the end of their financial resources. The fact was further noted that the United States did not lend gold to Britain for this purpose, but extended credit for the purchase of supplies of all kinds in the United States, thus providing employment at high wages for United States workmen and producers, and very large profits to the people of that country out of the high war prices then prevailing. Attention was also drawn to the fact that, following the war, the United States insisted upon repayment of these credits in gold; that it refused to accept goods and services from Britain; and that, to prevent the possibility of repayment being made in goods it raised its tariff to prohibitive heights, thus largely shutting out British goods.

The further fact was noted that Great Britain had made a gallant attempt to meet all its obligations to the United States in gold, even under these almost impossible conditions, impoverishing its own people in so doing, and finally being forced to abandon the gold standard, while at the same time in order to prevent the complete collapse of Europe it agreed to practically wipe out all payments due to the United States. In conclusion, we submitted that the time had arrived when Great Britain, unable any longer to make payment in gold, should say to the United States that, while it was in no sense repudiating its debt, because of the impossibility of continuing gold payments it was unable to do so, and that it was willing to pay in the same manner as the United States provided the credit, namely, in goods and services.

This particular article came to the notice of a paper published in Montana, which expressed its full sympathy with the most reasonable representation of the British viewpoint than most papers, and that, in some ways the viewpoint expressed was reasonable enough but in other ways unintelligible to the U.S. citizen. Then, in a friendly way, this U.S. paper refers to the fact that the British viewpoint is not only unintelligible, but annually to military purposes yet means pitifully at the thought of paying one-fifth of that sum on her debt over here. It then refers to France's expenditure of \$41 millions on her war machine, Italy's \$31 millions for a like purpose, etc.

One can, of course, appreciate this point of view on the part of U.S. people, but the fact must not be lost sight of that Great Britain has reduced her military expenditures to a greater extent than any other country; that, with a world-encompassing Empire she is spending less, not only proportionately but actually, than the United States, much less than France, and that she is the foremost advocate of disarmament in the world today. Be it noted, too, that the one-fifth payment mentioned by this U.S. paper has to be made every six months, therefore it is actually equal to two-fifths of the British military expenditures. Furthermore, the military expenditures do not have to be met in payments of gold, but in part by thousands of soldiers and sailors, clothing, food and equipment for them, thus maintaining thousands of families that would otherwise have to be supported by relief committees. But Uncle Sam refuses supplies of any and all kinds and demands gold, nothing but gold, which Britain no longer possesses in the quantities required because it is now stored away in vaults in the United States and France.

This U.S. paper says further that people outside the United States are prone to forget that some years ago the United States scaled down the amounts due by all its debtors, but in the scaling down what happened? We have before us a statement of the amounts owing by all nations to the United States prior to the payments of December 16, 1917. It shows that Great Britain owes \$4,600,000,000 principal and \$6,505,905,000 interest. That is, in its bargain with the United States, it has secured nearly one and one-half times more than the principal sum. But in the case of France the U.S. asks only \$2,522,674,000 interest on a principal paid of 4,025,000,000, while in the case of Italy with a principal debt of \$2,043,000,000, the U.S. asks only \$365,677,000 interest.

Or lumping all the debts together, the principal amount is \$11,522,354,000, of which Britain and France each owe approximately one-third, while the interest amounts to \$10,421,185,000, of which amount Britain is called upon to pay \$6,505,905,000, or over two-thirds of the total. Where, we think it may well be asked, is the fairness in such a form of scaling down or of settlement?

Yet Britain is the one nation that is making the most determined effort to pay. It has defaulted one payment, or one dollar. It has never even hinted at repudiation. All that was suggested in this column was that the United States give it a chance to pay in goods and services instead of gold, seeing that it is now actually impossible to continue to pay in gold, always remembering that the United States did not lend gold to Britain but granted credits for goods and supplies of all kinds purchased in the United States, which business added enormously to the wealth of the people of the republic, and a goodly percentage of which was actually paid to the United States Government in the form of income and other taxes imposed on the wealth thus created by Britain's purchases.

If the United States objects to any revision of the debt refunding agreement made with Britain if it still stands, it is a bluff policy which makes it impossible for Britain to pay in goods and services, and insists on gold, nothing but gold, then, we repeat, Britain will be fully justified in withholding gold payments, which it is impossible for her to continue to make, and let the debt stand until such time as the United States changes its policy.

If one man owed another for goods he had obtained from him and found, owing to circumstances entirely beyond his control, that he could not pay in cash but offered to pay in goods or other property he possessed, and every person would say the creditor should accept what his debtor was able and willing to pay; that it was the sensible, the business-like thing to do.

Starts Air Ferry Service

Air ferry service will connect the Isle of Wight with the mainland of England beginning this summer. Multi-engine planes will be used, and the trip will take only five or six minutes. The airports will be at Ryde, Isle of Wight, and Portsmouth, England, and connections will also be made with London. Intercontinental air and rail tickets will be supplied.

Apple Has Red Pulp

Congressman-elect R. H. Shoemaker, Farmer-Laborite, after 12 years of amateur experimenting—burning as he terms it in his back yard at Appleton, Wis., where he has a 10-acre tract, has produced a russet apple with a red pulp.

A Regular House Dog

John Robinson of Leeds, England, celebrating his golden wedding anniversary, said that keeping peace in the family had been no problem at all—his stay home nights. For fifty minutes. The airports will be at Ryde, Isle of Wight, and Portsmouth, England, and connections will also be made with London. Intercontinental air and rail tickets will be supplied.

Thankfully Received

Friend: "Why are you so jubilant?" Country Editor: "I just received another fine contribution from Farmer Brown's pen."

Country Editor: "A fine fat pig on subscription."

Looking For New Job

Lord Mayor's Head Chef Has Enjoyed Year Of Hard Work

F. G. Bowles, chief of the Mansion House kitchens in London, England, has offered his tall, white chef's hat and snowy coat and said goodbye to the Mansion House and all through his life. Mr. Bowles has presided over the kitchen. "It has been one of the hardest and happiest years of my life," said Mr. Bowles, who is only 37, and is looking for fresh cooking work to take. He pointed to a 350-years-old table in the kitchen and to the huge coal cooking range which, if need be, he can prepare meals for 1,000 people at once. The King and Queen have visited his stronghold of shining copper utensils and up-to-date cooking devices. "One of the outstanding events of the year," he said, "was when I made one of the biggest wedding cakes on record. This was for the wedding of the Lord Mayor's son. The cake weighed a quarter of a ton and had seven feet high—much taller than myself. I used three-quarters of a hundredweight of sugar on it. It took me six of my spare time for six weeks." Mr. Bowles who is an artist in food, leaves nothing to chance. He buys everything, tastes everything, and anticipates everything. He was the unexpected addition of about fifty more guests to dinner. He thinks of the 100 people in his spare time of new dishes.

Chinese Book Of Etiquette

Social Guide To Be Issued By Government

The Chinese government has decided to issue an official book of etiquette to guide the people during these days of sweeping changes in the social system.

The Ministry of the Interior has taken the matter in hand, and several leading officials of the Ministry are giving it their attention. An official of the Ministry explained: "The rush of modernism has swept away many established Chinese customs. Hygienic customs and that she is have replaced them. There is no longer an approved 'right way' for doing anything."

"We propose, therefore, to standardize all important rituals, and set rules for even the most ordinary salutations. We are sure the people will appreciate guidance in such matters."

Chance To Make Fortune

By Discovery Of Where Sprats Spend The Summer

Where do sprats go in the summer? There is a fortune for anyone who can find out.

"Thousands of pounds have been offered by British Government departments and fishing companies in an attempt to find where these little fish live during nine months of the year. The man who can find out where the sprats spend the summer will be a millionaire within a few months," said an official of the British Travelers' Association the other day.

"The sprat is found in British waters between November and February. Then he vanishes; no one has ever found him."

Knew What She Wanted

Lawyer's Wife Gave Her Reason For Refusing Summons

The wife of a lawyer—a bride of three months—was somewhat surprised one day when a strange man appeared at her door. He was a lawyer, and he wanted to see her. She informed him that she had a summons for her husband, but that she didn't want any summons, protested the young woman.

"It isn't a question of your wanting it or not," got the lawyer in the process server, handing her the paper.

"But I won't take it," again protested the bride. "My husband's lawyer, and if I want a summons I'll get him to give me one."

Perislim Balm is irresistibly appealing to all women who appreciate charm and elegance. Its use keeps the complexion always clear, soft-textured. Softens and whitens the hands. Perislim Balm is equally invaluable to men as an excellent hair tonic and cooling shaving lotion. It dispels all itching to the tender skin of the child.

Cotton and artificial silk material that cannot crease or wrinkle is now being made by a new manufacturing process.

W. N. U. 1974

Where Mother-in-Law Rules

No One Disputes Her Supreme Authority In China

One thing about China is that they can't understand any of the "mother-in-law" jokes of the American. It so happens that in the land where chop suey is unknown the mother-in-law is the head of the family, according to Margaret Maury, professor of journalism, and one connected with Chinese newspapers.

"The mother-in-law in China is the supreme master of the destinies of the family friends," said Maury. "She rules with an iron hand and she is an integral part in the social and business life of her son-in-law, which is a different picture we have of the down-trodden male."

"China may be easily called the leader of the woman's emancipation movement, although it is unwary by our own members of that sex."

"China may be easily called the leader of the woman's emancipation movement, although it is unwary by our own members of that sex."

Device Next Thing

To Perpetual Motion

Machine Produces Power Without Fuel Or Human Aid

The nearest thing to man's oldest and most futile dream—perpetual motion—was on exhibition at the Great Central Palace, New York, at the national exposition of power and mechanical engineering.

The machine produces power without fuel or human aid. Engineers said it was not so perpetual motion as we are, but he showed it in an altogether different way. Their inscrutable countenance is just as readable as the machine's motion.

George H. Gibson, Philadelphia engineer, explained he "threw the machine together" in his spare time. The machine works on a thermodynamic principle, utilizing water vapor to produce its power. The vapor is invisible and the machine apparently operates without a source of energy.

Engineers explained the chief reason it was not perpetual motion was that its parts would wear out and that it could be stopped.

Reason Coast City

Is Considered Rainy

Vancover's Fleet This Year Enough To Float Fleet Of Liners

Since Jan. 1, 1932 slightly over 180,000,791 tons of water have fallen on Vancouver.

And if all that rain had remained there, instead of this being the Pacific Coast there would have been a lake, 44 square miles in area and almost five feet deep.

And if it had been so long in a reservoir, say one-quarter that size, the "Empress of Japan," and all her sister ships could be floated upon it. The "Empress of Japan," and all her sister ships could be floated upon it.

Meteorological records show that the average yearly precipitation over a 20-year period there is 58.13 inches. But this year, with a month to go, it totalled 56.69 inches, so it looks as though 1932 would go down in history as a really wet year.

Add Another Invention

Pioneer Of Brandon Has Several To His Credit

L. H. Powers, a pioneer of the city of Brandon, has added to his list of inventions with an ash container and incinerator. Mr. Powers settled in Brandon in 1881, and has to his credit a number of patents, including a four-horse engine for a binder, a grain car dory, two grain car unloaders, and a clothes line lighter.

He recently exhibited a model of a concrete incinerator for inspection, and it is to be economical in construction and in operation. It is conceded to be a most sanitary way of disposing of garbage, and can serve four households in the same vicinity.

Pensioners Must Stay Home

Retired German officials must stay in Germany if they wish to have their pensions. The government has informed these enjoying Mediterranean or other foreign resorts that unless they return within six months their pensions shall be forfeited. The object of the rule is to help in preserving Germany's foreign currency reserves.

European naturalists declared recently that butterflies sing to their young.

Game Warden's Fish Story

Salmon On Flooded Road Made Him Stop Car

Game Warden C. H. Pike, of Vancouver, has a new fish story and he sticks to it. He says that while driving his automobile along the Rose Road, near Cloverdale, ten miles east of New Westminster, he had to stop to let a salmon pass.

"It was driving along the flooded section of the road and noticed something moving in the water on the road ahead of me," related Pike. "I halted the car and waded along through the water to see what it was. Sure enough it was a big salmon making slow progress along the road. When it saw me, of course, it spurted away, so I couldn't bring it home for supper—and evidence."

Thousands of acres in the Fraser and Serpentine Valley were under water as a result of recent floods. Mid-winter melted the early snow in the hills and heavy rainfall in other sections contributed to the flow of water. The water was so high that the Skagit River country, where roads in some places were two feet under water, are said to have made some good catches of fish in their backyards.

Kootenay National Park

Wonderous Natural Beauty Provides Great Attraction To Tourists

Kootenay National Park, established to preserve the natural beauty of the area along the western part of the Canadian-Washington border, has many claims on the tourist. On each side of the highway nature's handiwork remains in all its vivid beauty.

The modern section which the tourist enters at the west, sheer rock walls coloured in pines with a brilliant red as if artificially stained with pigment, rise from the little stream. Deer, highborn sheep, elk, moose, and Rocky Mountain goat may be seen feeding fearlessly on the grassy slopes and practicing their vaults holds a sparkling lake and brook teeming with fish. At Sinclair the famous hot springs, renowned for the therapeutic value of their waters.

One Reason For Advertising

Only Way Some People Know What Is For Sale

Modern life is much different today from what it was a decade ago. Today a great deal of buying is done over the telephone.

This, in turn, means that opportunities for purchases advantageous to the buyers are now almost completely centred in newspaper advertising. The modern housewife knows what she wants, knows by brand name, and orders in that manner—because advertising has taught her how she should do it and why it is profitable for her to do so.

Imagine ordering from an unknown grocer "Some breakfast food," "The modern housewife knows what she wants, knows by brand name, and orders in that manner—because advertising has taught her how she should do it and why it is profitable for her to do so."

rendering it difficult to handle, and a source of considerable annoyance. The Forest Products Laboratories of Canada, Forest Service, Department of the Interior, are investigating this problem, and at present have a large number of poles under observation.

These were treated under pressure by several different methods, and it is hoped to be able from these experiments to determine the treatments most effective in preventing "bleeding."

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them, and the child can be ready again in a few days. The powders are so easy to take that the most delicate stomach can assimilate them, and the child can be ready again in a few days.

In 1931, he said, 3,307 accidents to pedestrians were reported in 328 American ships. More than one-third of the accidents, he said, were caused by structural defects.

It Will Relieve a Cold—Colds are the commonest ailments of mankind and if they are not kept under control, they may lead to more serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages, loosen the phlegm, and soothe the throat, and it will strengthen them against subsequent attacks. And as the inflammation it will usually stop the cough, it will also the irritation in the throat. Try it and prove it.

Didn't Want That Beat

A young man from the country went to London to join the police force. He passed the medical examination, and then the officer in charge asked him if he had a good general knowledge.

"Yes, sir," came the reply. "The rule is to be in London to 'be'."

DECLARE THEY HATE SIGHT OF DUST CLOTHS

Canadian women vote dust cloths a nuisance to use and to wash

MUCH PREFER APPLEFOOD WONDER PAPER

With no more inventive thought being given to the problem of cleaning, it is only natural that a worthwhile substitute for the dusty dust cloth should be sought.

Now it has been found. Applefood Wonder Paper—actually dust—as it cleans—as it polishes—receiving a heavy shower from Canadian women who detest dust cloths and all they stand for.

Wonder Paper is made from clean glass and soft paper pulp, thoroughly impregnated with a high-grade furniture polish, and absorbs dirt instead of spreading it.

Applefood Wonder Paper comes in handy packages, twenty-five sheets, each sheet as long as a handkerchief, and short into a soft wad, and go over the surface of the furniture.

When you're amazed at the quick and lasting finish Wonder Paper gives. When one side is worn and soiled, simply turn the Wonder Paper inside out. After the first use, the other side has been gone over, you can still use your Wonder Paper for a long time.

And when you're through—throw it away. Do not to shake out or wash. No need to wash. The most delicate of housework done in half the time and with half the effort. Don't the idea appeal to you?

Special Offer

Wonder Paper is made by the makers of the famous Applefood S.A.V. Furniture Polish in the Green Box. Most grocery and hardware and department stores sell Applefood—Wonder Paper. If you don't, just send the coupon and we'll give you a free sample of the "Lovers," containing one hundred sheets, as a bonus for your trouble.

Aspland Paper Products, Ltd.,

Enclosed find 25c for free full-size sample of W.O.N.E. and your FREE PAPER and your 100 sheets for "Left-overs."

Wood Preservation Problems

Crescote Treatment Is Subject Of Investigation By Scientific Tests

With the increasing use of wood preservatives in extending the life of wood structures, problems are constantly being encountered the importance of which could not be foreseen in the early days of the development of this practice. One such problem is the "bleeding" of timbers after impregnation.

"Bleeding" is meant the exudation of crescote to the surface of the timber, rendering it difficult to handle, and a source of considerable annoyance. The Forest Products Laboratories of Canada, Forest Service, Department of the Interior, are investigating this problem, and at present have a large number of poles under observation.

These were treated under pressure by several different methods, and it is hoped to be able from these experiments to determine the treatments most effective in preventing "bleeding."

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them, and the child can be ready again in a few days. A Business Proposition

Owner Of Thatched Farmhouse Had Good Advertising Idea

A well-known artist was painting a beautiful thatched farmhouse. The farmer was an interested on-looker.

"I say, what are you going to do with that picture of my cottage when you've finished it?"

"I shall send it to an exhibition, I expect," replied the artist.

"The farmer was silent for a moment, and then he said to the artist:

"Will many people see it?"

"Thousands, I hope," said the artist.

"Then," said the farmer, "would you mind putting on it 'To be let during the summer months'?"

World war widows in Europe have married again at an average rate of 2,000 a year.

5. Market feed crops largely through livestock, adopting approved feeding and management practices.

6. Consider improved marketing methods.

7. Keep farm records.

It should be the object of agricultural heads to put such a programme into practice, with the co-operation of farmers, the agricultural college extension service and local bankers, service clubs, the sugar companies and other organizations interested in agricultural improvement.

HEALTH

Earaeche

Ears are useful if not always ornamental. Hearing is essential to the communication of speech. Speech differentiates man from the rest of creation.

Look into an ear and you see a canal which is closed at its far end by a membrane known as the drum of the ear. The drum separates the canal, or outer ear, from the middle ear. Beyond the middle ear is the inner ear, which is really part of the brain, for it's in the inner ear that the sense of hearing is located.

The middle ear is connected with the throat by the Eustachian tube which controls the air pressure in the middle ear. The tube is generally closed, but is opened in the act of swallowing. The fluid which is secreted in the middle ear is drained off through the tube, into the throat.

Earaeche which is due to inflammation of the middle ear generally comes from the throat and not from an outside cause. Any inflammation of the nose and throat may spread up the Eustachian tube and set up an inflammation of the middle ear, resulting in a severe earache. The most common of such occurrences is associated with head colds. When a young child who is suffering from a cold in the head is particularly distressed and wails bitterly, the reason may be that there is inflammation in the middle ear.

Communicable diseases, such as scarlet fever, measles and diphtheria, often give rise to middle ear infection in the same manner. The frequent occurrence of earaches suggests some abnormal condition of the throat or nose, such as adenoids diseased tonsils and infected sinuses.

We stress the importance of earache as a symptom, because prompt treatment of earache may prevent the spread of the disease to the inner ear and so eliminate the necessity of a mastoid operation and the possibilities of a meningitis or brain abscess.

Earaeche comes from within. Obviously, if the source of the trouble is in the throat or nose it is going to be removed by pouring something into the ear.

Official and unofficial delegates to the Imperial Economic Conference were welcomed from August 12th to the 14th. Two from Ottawa were arranged, both having the capital in special Canadian Pacific trains late Friday night, August 12.

Shawville Falls and Three Rivers were visited by one party while the other members were cruising down the St. Lawrence from Kingston to Montreal and spending Saturday evening in the metropolis.

None of the United Kingdom, Australia, New Zealand or Newfoundland or Irish representatives were able to attend the conference from Confederation, but their delegations were well-represented.

Among the party were Hon. N. C. Havens and Hon. A. F. J. Purie, South Africa, and Hon. H. W. Moffat, Southern Rhodesia. The Canadian Government was represented by Hon. Arthur Sauve and Hon. Maurice Dupre, with the Chevalier and Hon. Al. Fred Durelleau and Hon. H. A. Stewart, with the other party.

The external ear may also ache. In children the external canal may be injured by the mother who is over-particular in cleaning her child's ears. Children's ears should not be pulled, or boxed, or poked at, and serious harm may result from these practices.

The nose, mouth and throat of a child should be healthy. The child should breathe through his nose. The nose should never be compressed when it is being cleared. Colds are to be treated as serious conditions. Earaches need prompt and proper attention if serious conditions are to be avoided and hearing preserved.

Here and There

Maintaining her position among world nations as a producer of metals, Canada led the world in the production of nickel and asbestos in 1931, came second in gold, platinum, mica and cobalt, third in silver and fourth in refined steel.

Mystery cruises, so popular out of New York, Southampton and Montreal, have come to the Pacific Coast, being ushered in there by the trim little coastal liner "Princess Patricia" of the Canadian Pacific service, which took the first of its cruises recently. The ship had a full sailing list.

The Canadian Open Golf Championship, third of the six contests forming yearly in the Royal and Ancient game, will be staged on the course of the Royal York Hotel, Toronto, next year, word to that effect having been received by the secretary of the links from the Royal Canadian Golf Association.

Seventy-seven per cent. of wheat and 63 per cent. of oats and barley in the three western provinces were harvested by September 3, according to the report based on that date from the general agricultural department, Canadian Pacific Railway, Winnipeg. This result was reached in spite of the halt in harvesting operations due to heavy rains in wide sections of the Prairie Provinces.

All records for the story of the "one that got away" were broken recently when a well-known fisherman hooked a heaver in Vermilion Lakes and played it for five minutes after which the tradition was fulfilled with a case of fly and leader. The hero of the exploit was S. C. Bennett of Toronto, a guest at the Hunt Spa Hotel.

Canadians got a thrill recently when Captain J. A. Molson, intrepid trans-Atlantic solo flyer, spoke over the air, which he had conquered, from the Mayfair Lounge of the Canadian Pacific liner Empress of Britain. Captain Molson, who has 54 radio stations from Halifax to Victoria over a network arranged by the Canadian Pacific Department of Communications, loud broadcasted the broadcast to 60,000 visitors at the big exhibition at Toronto.

Though the "Princess Royal" veteran of the Canadian Pacific Railway R. C. Coast steamship fleet had been scrapped and is now in the limbo of departed ships, her forecastle bell remains on the air at Ocean Falls, B.C., where it has been taken to the Ocean Falls United Church mission, which ministers to the spiritual welfare of Japanese children.

Winter Sports

A very commendable effort is the undertaking of the Curling Rink Management to put on a Borspeli and Turkey Supper. This is a very praiseworthy effort during these trying times and should be supported by every well meaning citizen of our community. Then let us not forget the hockey boys. This district has a wealth of promising material waiting for proper support and a capable leader. Now, who will volunteer? Again we say—"Let's Go!"

Motor troubles? Electrical or mechanical—just drive up and Tommy Thompson will be only too glad to diagnose and remedy them for you. Tommy is constantly on the job to give you prompt and effective service. Then too there is tractor work that you are going to have done before the spring rush starts. Bring it in early and avoid the rush.

Each day's use of her new Acorn Range convinces Mrs. J. V. Henderson that she made no mistake in buying a Renfrow product.

We have the Renfrow stove in two distinct styles and each style in two models.
